

Public Health England weekly COVID-19 positive cases for Milton Keynes MSOAs.

Positive cases reported by 19th Nov with specimen date up to 14th Nov.

Middle Layer Super Output Areas (MSOAs) are used to compare categories of population data. In Milton Keynes the population of MSOAs range from 5,448 in Two Mile Ash to 22,727 in Broughton, Middleton & Kent's Hill. This is the reason rates are standardised per 100,000. The total population for Milton Keynes being used is 269,457.

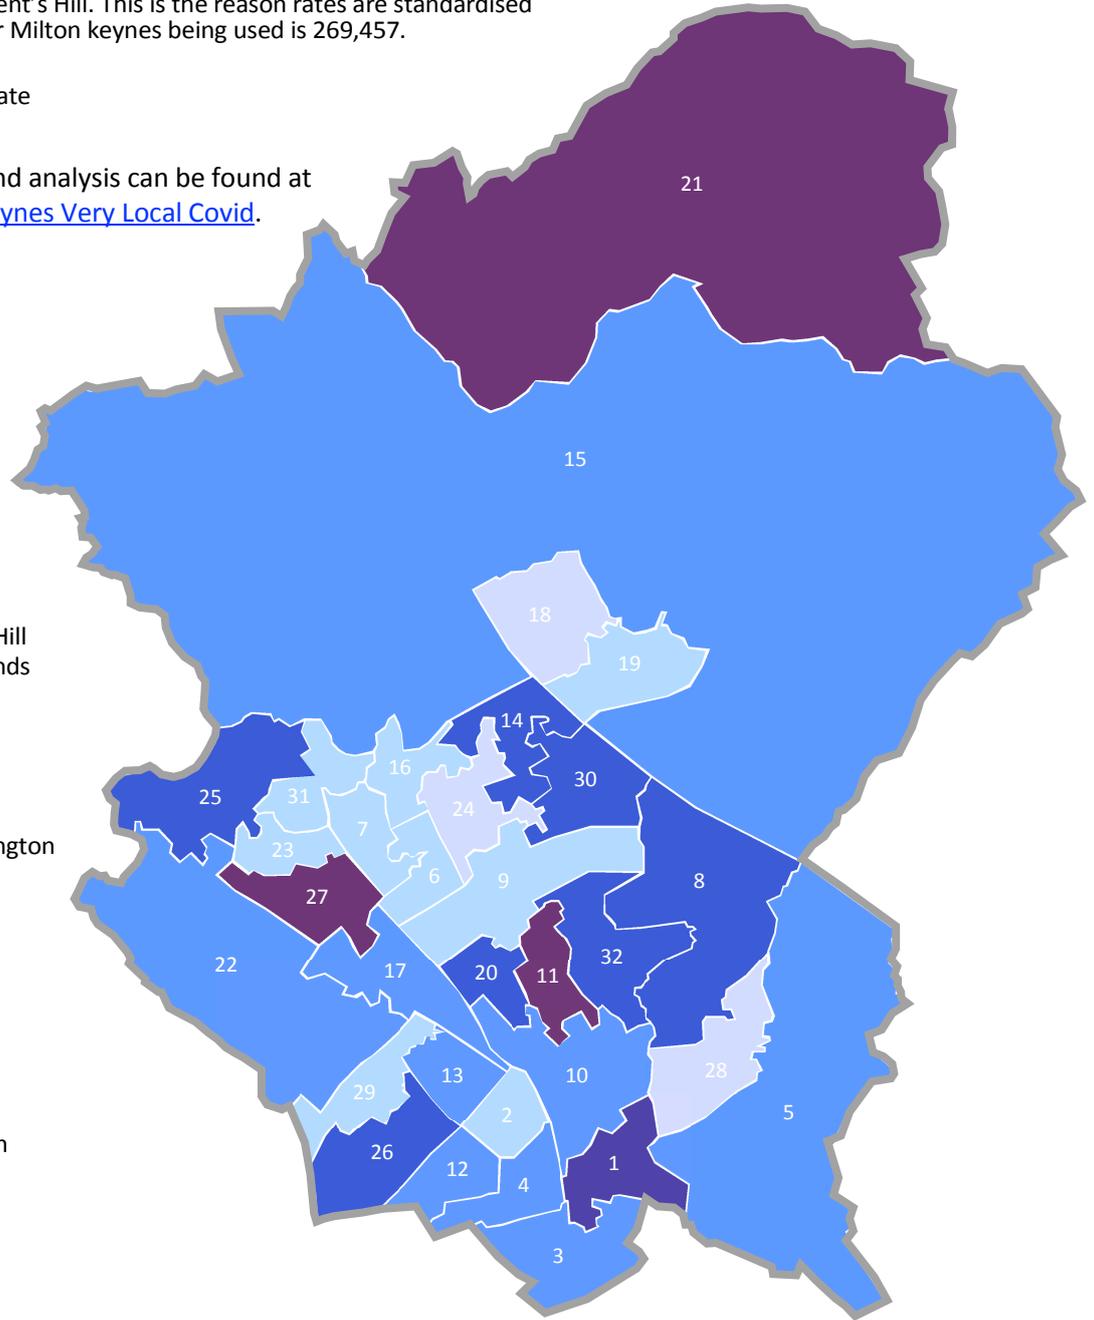

Per 100,000 population, seven-day rate

More maps and analysis can be found at [Milton Keynes Very Local Covid](#).
